Proper Set Out

- Be sure your carts are at the curb by 6:00 am on your collection day. Log into your account or contact us to find out when we service your area.
- Leave the carts at the curb until we've emptied them. ***Our trucks can arrive at different times each week***.
- Place your carts facing the street with wheels against the curb (if possible).

- Leave 3 feet between each cart.
- Do not place carts close to parked cars, fire hydrants, low-hanging branches, parking meters, utility poles and other obstacles.
- Do not overload your carts. ***The lids should close completely.***
- Set overflow recycling in paper grocery bags next to the blue cart. Overflow garbage will not be collected unless you have affixed pre-paid tags to your trash bag. Call ACI to purchase tags or to arrange for additional service.
- Do not wedge or compact materials into your carts. Doing so will prevent your cart from being fully emptied when serviced.
- Materials from a construction, demolition or landscaping project do not belong in your carts. Call ACI to order a temporary debris box for these items.
